

Medical Analytics Manager Madrid - Spain

Do you enjoy working in projects that combine data and business intelligence? Are you a story teller familiar with the use of data and interactive visuals to translate patterns and insights into creative business reports? If so, we would like you to join our CoE in Analytics & Big Data in EMEA (Madrid) to help us improve the business of our clients and our own.

- You are responsible for the definition of the data strategy, the compilation of the functional documentation and the design of data procedures within the organization;
- You coordinate a multidisciplinary group of data scientist to set up the data strategy, taking value of managed data;
- You are responsible for the identification of new use cases to build a data driven organization;
- You analyze, evaluate and make use of new technologies, tools or frameworks around data management.

What we offer

When you join our team we offer you an attractive salary and secondary benefits, including a variable bonus scheme. You will get the opportunity to work in a flexible environment, with flexible working times, great social benefits and lots of training possibilities and the opportunity to build your career internationally.

Your profile

You have a **Bachelor degree in Pharmacy or Medicine** and a specialization or Master's degree in **Bioinformatics or similar**. Additionally, you have at least **3 years of experience**, working on data exploitation and the development of (advanced) analytical models within the health industry;

- Skilled in the use of automatic coding tools;
- Experience with Business Intelligence tools and Azure services;
- Familiar with main programming languages: Java, Python, Scala;

You were born with an analytical mind and a self-motivation that urges you to strive for results. You are a natural team player, eager to learn and flexible to adapt regardless the environments you are required to join. Next to this, you are **fluent in both Spanish and English**.

About Fujitsu
